 Asbestos • Lead**

**Biological and Cultural Studies**

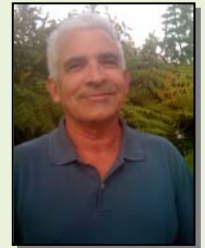

## SPEAKERS

**JEFFREY RANDLE, Environmental Professional/Project Manager** ~ Environmental Assessor, California, REA I 07736

ASTM Training for Phase I Site Assessments for Commercial Real Estate, Personal Communications Industry Association (PCIA) Seminar: Practical, Compliance with the FCC's New 'Nationwide Programmatic Agreement' Since 1996, Mr. Randle has served as a project manager handling environmental compliance for the construction of over 2,000 telecommunications facilities throughout California, Arizona, Nevada, Utah, Oregon, Idaho and Hawaii. He is responsible for quality assurance, quality control, and timely organization of environmental site assessments and geotechnical investigations as well as corporate communications between both clients and sub consultants.

**RODRIGO PROUST**

During his 28 years of experience, Mr. Proust has successfully managed environmental companies with more than 100 clients, being involved in business development, field operations, proposal preparation, and reporting of field investigations. With both a B.S in Geology and a M.S. in Geophysics, his extensive experience with soil and groundwater investigation and remediation has included projects dealing with soil drilling, excavation, soil remediation, groundwater monitoring, well installation, aquifer characterization, producing water discharge programs, UST and landfill investigations, EPA protocols, LUFT guidelines, health and safety risk assessments, and much more.

### GAVIN LEAVER

Mr. Leaver has been the President of Environmental Assessment Specialists, Inc. (EAS) since 2000. Under his leadership, EAS has expanded from localized operations in Southern California, to a continually broadening area that includes the western United States. In a continually changing business environment, he has lead his organization to success by keeping the company responsive and adaptable to the needs of the customers, and developed a network of highly skilled professionals capable of handling all of the challenges that the industry has presented.
